

Model PLBT35-2

Model PLBT35-2 Comes Equipped With These Standard Features!

6' Beavertail allows for low angled approach.

Standard 8'x3' hydraulic ramps with electric over hydraulic power unit makes loading fast and easy.

Full width gradual slope to upper deck means utilizing upper deck space for loading.

Continuous beam design ensures added trailer strength.

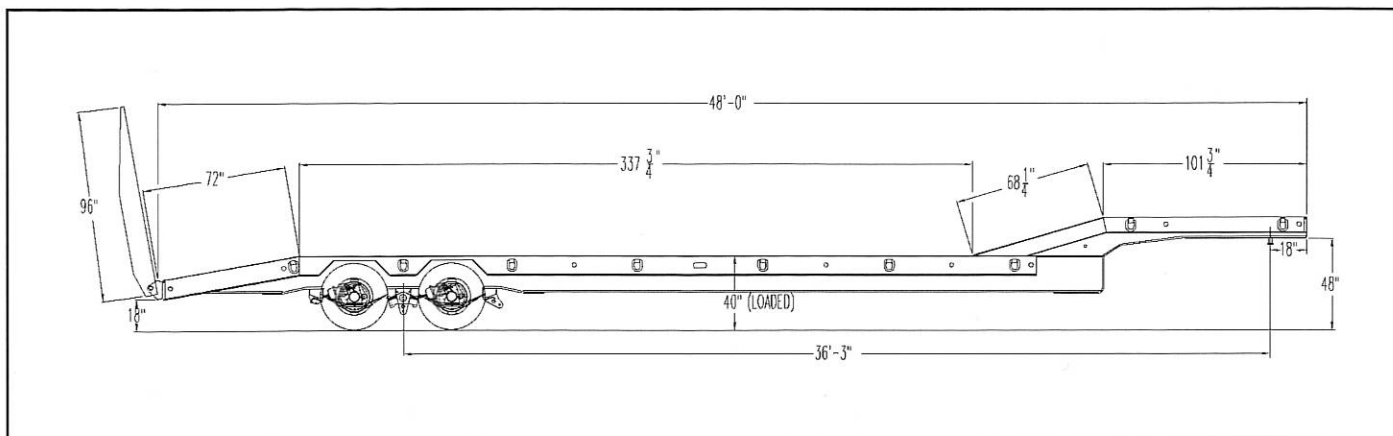

Hutch 9700 Spring suspension • 255/70R 22.5 (H) Low profile steel belted radials • Outboard mounted oil bath hubs • 10-Hole Budd wheels.

9 "D" rings per side, mid span turn signals, and flag holders as standard equipment.

OUR Standard Features Are What Others Call Options!
